Mackenzie Gas Project
EIS Conference to assess the sufficiency of information

The Joint Review Panel (the Panel) is sponsoring an EIS conference to assist the Panel in determining whether there is sufficient information filed by the Proponent on the public record to proceed to the public hearings phase of the Panel's review.

The Panel is in the midst of retaining a facilitator to convene and facilitate the conference.

To meet the needs of the participants and the Panel a collaborative approach to planning the conference is envisioned. The Panel supports this approach and proposes that a small group of interested interveners and the Proponent meet with the facilitator and Panel staff to address organizational matters. Participants at the meeting will work with the facilitator to:

- identify and prioritize 'sufficiency' issues from the EIS, supplemental information and Information Requests
- determine the role of experts, interveners and the Proponent at the conference (taking into account the range of participant expertise).

It is anticipated that the planning meeting will occur on 24 - 26 May 2005, in Inuvik and participants will be in regular email and phone contact leading up to the conference. As time is short, Panel staff will contact the Proponent and a cross-section of interveners to structure the planning group in a way that is inclusive (broadly representative of the participants) and effective (small and able to meet on short notice).

If you wish to be involved in the planning task or have any questions about the emerging conference process please contact the Panel Manager by 16 May 2005:

Paula Pacholek
Joint Review Panel Manager
