

February 22, 2007

To: All Parties to the Environmental Impact Review being conducted by the Joint Review Panel for the proposed Mackenzie Gas Project

Re: Open General Hearing – February 26, 2007 (Edmonton)

The Joint Review Panel (the Panel) has scheduled its Open General Hearing in Edmonton to take place during the afternoon and evening of February 26, 2007. The Panel is of the view that the amount of time it has scheduled should be sufficient to accommodate the number of participants who have registered to make a presentation at this Open General Hearing and will make all efforts to stay within this schedule. However, in the event that registered participants can not be accommodated in the amount of time scheduled, the Panel will extend the hearing session into Tuesday morning, February 27, 2007.

If the hearing session must be extended, it will start at 9:00 am on Tuesday morning at the Shaw Conference Centre.
