Dear Mr. Falvo,

Re: Motion requested on behalf of Alternatives North Coalition

The Joint Review Panel (Panel) has considered the Motion from Alternatives North Coalition (ANC) dated July 2, 2007 requesting that the Panel issue an order allowing ANC to register for the Open General Hearing scheduled for July 9 – 11, 2007 and to ask questions of the Proponents by telephone during the hearing (the “Motion”).

The Open General Hearing scheduled for July 9 – 11, 2007 is for the purpose of reviewing and clarifying the information filed by the Proponent in May, 2007 in the documents entitled *Supplemental Information – Project Update* (the Project Update) and *Estimated Economic Impacts of the Mackenzie Gas Project – Construction and Operations Update with Revised Capital Expenditure* (the Ellis Report), as well as the information provided by the Proponent in the Responses to Round 6 Information Requests, and the effects associated with changes arising from the new information.

Having regard to the fact that the referenced hearing is one that was not included in the initial set of hearings included in the Panel’s hearings phase, the Panel is satisfied that these are exceptional circumstances and that the reasons provided on behalf of ANC are valid. The Panel therefore grants the Motion allowing ANC late registration to participate in the July 9 – 11, 2007 hearing and to participate in the questioning of the Proponent by way of telephone.

Please contact the Panel Manager, Ms. Pacholek, to discuss the arrangements that will be required to enable the technical aspects of ANC’s telephone participation.

Sincerely,

Robert Hornal
Chair, Joint Review Panel
